ACKNOWLEDGEMENTS

Bismillahirrahmanirrahim.

Alhamdulillah, I am very grateful to Allah S.W.T for lending me time, strength in physical and material and also courage to endure the challenges in completing my Master by coursework. I would like to thank both of my parents, Allahyarham _____ and _____

and family members for their support and contributions throughout the process of conducting this research. To my wife lovely _____ and _____

for the support. My son _____ and _____

This study has made me to experience beautiful moments with primary school children when we were doing experiment on combination of batik techniques with an alternative media.

My deepest gratitude to my dear research supervisor, Prof. Dr. Abdul Shukor bin Hashim, for his advice, suggestions and patience in guiding me throughout the completions of this study.

Last but not least, I would like to thank all the lectures, fellow friends, individuals and organizations who had shared their opinions, exchange ideas, and state positive and negative comments. Thank you.

An alternative media and technique in Batik for Primary School

Abstract

Batik is a craft that was introduced in primary schools in Malaysia. Visual arts education is a medium for batik craft in primary school. This study focuses on the problem of teachers conducting batik activities in primary schools. Problems arise when teachers lose interest in batik activities in primary schools. Survey questions has been made that teachers lose interest because of the use of hot wax on batik activities. In this study, the researchers explore the literature review to find alternative media on batik activities in primary schools. This research conducted experiments method and art base research to explore solution. Statistical data and art base research combined incorporated into this study. Experimental with an alternative media on batik technique will be made. Purpose of this research is to find an alternative and technique in batik for primary school.
