ACKNOWLEDGEMENT

I wish to express my deepest gratitude to my supervisor, Encik Azhar B. Aziz for his guidance, support, encouragement and constructive criticism that I had been receiving for the preparation of this thesis. I also wish to express my sincere appreciation to project coordinator, Puan Ariza Nordin for her guidance from very the beginning of this semester.

And also to all students in the Faculty of Information Technology and Quantitative Sciences, thanks for their willingness, dedication, efforts and in sharing valuable knowledge. In addition, I would like to thank Encik Syamsul and Puan Salmah for their contributions and agreement to be interviewed.

Finally, my deepest appreciation goes to all my friends especially Azian, Astina and Norelissuryani for their support and helps either directly or indirectly.
