Bridging the Gap: UiTM Mukah Banking Students Explore the Heart of Malaysia's Economy (FIN388: Field Trip to BNM)

Author: Norazimah Mejri

As part of its commitment to experiential learning, 47 students from Universiti Teknologi MARA (UiTM) Sarawak Branch, Mukah Campus, participated in an academic visit to Bank Negara Malaysia (BNM) in Kuching from 24 to 27 November 2025. The programme was organised for students enrolled in the FIN388 course for the 20254 session and was led by Miss Norazimah binti Mejri from the Faculty of Business and Management (FBM).

The visit provided students with valuable exposure to the role of Malaysia's central bank and its responsibilities in maintaining monetary and financial stability. Through briefings and engagements with BNM personnel, students gained a deeper understanding of key areas such as monetary policy, currency management, and financial regulation. The experience enabled them to connect theoretical knowledge acquired in the classroom with real-world practices within the financial sector.

Beyond academic enrichment, the programme also contributed to the students' professional development. Exposure to a dynamic working environment enhanced their understanding of industry expectations while strengthening essential skills such as communication, professionalism, and critical thinking. Interactions with financial practitioners further broadened their perspectives on career opportunities within the banking and finance industry.

The academic visit reflects UiTM Mukah's ongoing efforts to bridge the gap between theory and practice through meaningful industry engagement. Such initiatives play an important role in preparing graduates to meet the demands of the workforce while fostering informed, competent, and industry-ready future professionals.
