In the name of ALLAH,

The most Gracious and the most Merciful.

I would like to express my gratitude to Allah with His graciousness for giving me the time to complete this research. My big appreciation goes to my research supervisor, Encik Azhar Abdul Aziz for lots of understanding and guidance during completion this research. His advices, willingness to help, knowledge in ethics have really helped me to complete this research.

I also would like to thank my interviewees, Encik Khalil Haji Awang and Encik Azlan Abdul Aziz because of their willingness to cooperate in contributing some insights for my research.

To my best friend, Norsyalida Kamarudin for her support and intelligence. To my happy and energetic friends, who are very helpful in giving me information and creative idea for the research, especially the final year students of Information System Engineering (ISE).

May Allah always bless us.

Thank you very much.

ABSTRACT

This research is purposely done to determine whether camera phone abuse can occur among FTMSK societies. It is also to determine whether camera phone abuse may cause information theft, privacy issues and violation the law. In addition, this research also makes a comparison between students and lecturers. Besides, the researcher will propose an ethical guideline on proper usage of camera phone. Questionnaires were distributed to the FTMSK societies. The researcher also conducted an interview sessions with the academic staffs in FTMSK to gain more information regarding camera phone usage. On the whole, it can be said that FTMSK societies do not abuse the use of camera phone. However, there are minority of them who still have the tendency to abuse camera phone usage. Therefore, an ethical guideline has been proposed as a preparation for Malaysian to use camera phone properly.
