Without them, we will have a very difficult situation in completing this research proposal. Besides that, we also would like to thank our friends that have given us support in ways such as giving supportive criticism and also contributing ideas that are useful in our research proposal. Overall we would like to thank all the people who have supported us in doing research proposal, we feel very blessed with the good environment and surrounding during the completion of this research proposal. Without all this helps and supports we definitely would have a hard time to complete the task. Thank you from the bottom of our heart.

Abstract

Anti-social behavior is the behavior that is deemed strange, or contradictory to local norms and values. Student anti-social behavior can be defined as the deviant behavior that contradicts to the norm and values as a student. The study examines the factors that contribute to the anti-social behavior among students at Maktab Rendah Sains Mara Batu Pahat, Johor. In this study, 160 of questionnaire were distributed to the student respondents at MRSM Batu Pahat Johor. According to the findings, it was recognizing the media influence had become the most influential factor that contributes to student's anti social behaviour at MRSM Batu Pahat Johor. Parenting style and peer pressure also have significant relationship to the student anti-social behavior. From researcher's case study, the researchers can see that there are a number of students who commit anti social behaviour without they realize it. Every entities must step forward to overcome this problem must be instantaneously implement in order to control the problems. It is not the mistake by the individual themselves, but it concern all in the society.
