ACKNOWLEDGEMENT

Alhamdulillah, praise to Allah for His guidance and mercy that we finally able to complete our research project, which is one of the requirements to complete our bachelor study. Firstly, we very grateful to Allah because of His endowment, all of our work in finishing research project finally has been completed successfully.

Secondly, thanks to our research supervisor, lecturers, our parents, friends, and certain parties in helped us in all aspects. Completing this research proposal was a challenging project for us. However, fortunately we had the help of many parties that made this proposal less difficult.

Our research supervisor, Miss Fazlina Bt Jamaludin deserved a special mention here. He always motivated us and gives guideline in accomplished this proposal. He made us work harder and for that, we will always be grateful. We thank him from the bottom of our hearts for being there in our moments of needs.

I would like to thank our lecturer who taught us many things about research but did not tell us that it would be this difficult. We learned a valuable lesson about research in action. Things do not always go as expected or planned. Sometimes we have to make adjustments but these adjustments must be justified or qualified.

Lastly, once again, thanks to God Almighty without whose blessing we will not have successfully completed this proposal.

THE ABSTRACT

Abstract

This research is about a study on factors that influence people to involve in drug mule: A case study In IPK Melaka. The researchers used judgment sampling techniques of 47 respondents of police officers at Ibu Pejabat Polis Kontinjen Melaka were answered questionnaire given. The objective of this research is to determine the relationship between factors and people involvement in drug mule. There are three factors that influence people to involve in drug mule which are money, family's influence, and peer's influence. These factors as independent variable while people involvement in drug mule as dependent variable on this study. The all factors have association significant relationship with people involvement in drug mule. This is due to result of chi-square that has been used. The most factors that influence people to involve in drug mule are peer's influence followed by money and family's influence. In conclusion, peer's influence, money, and family's influence can influence people to involve in drug mule.
