## ACKNOWLEDGEMENTS

بسم الله الرحمن الرحيم  
الحمد لله رب العالمين  
الصلاة والسلام على أشرف الانبياء والمرسلين

Praise to Allah the Almighty for giving me superior knowledge throughout this period of study and for all that has bestowed on me. It is with His power the study is completed.

I would like to express a very special gratitude and thankfulness to my supervisor Assoc. Prof. Dr. Zainab Abu Bakar who is giving me reliance and shrewd guidance that have profited me very much. She who is also gave lots of support in this knowledge quest.

My special appreciation is due to the Dean of the Faculty of Information Technology and Quantitative Sciences, Assoc. Prof. Dr. Adnan bin Ahmad and the Programme Head of Bachelor (Hons.) Information Technology, Puan Salwani Jaafar who is giving good management services throughout my degree program. My credits are also due to the computer laboratory staff of the faculty for their most generous assistance.

To my friends, Norsharizan Muhamad, Hasmiza Yob, and others in the faculty, who are simply too numerous to indicate, thanks for your time, understanding and buttress. May Allah will reciprocate you for all those things.

Last but not least, to my parents and my siblings, I would like to forward my obliged to them for their continuous support during my study period, their patience and benevolence. Thank you.

والله علم بالصواب  
أمين

## **ABSTRACT**

Information Retrieval is the study of systems for indexing, searching, and recalling data, particularly text or other unstructured forms. With the implementation of Information Retrieval techniques on Internet searching are more efficient and effective. This project is aimed at creating an on-line updating facility for BSc students to update their thesis abstracts. A template is provided for the student to fill-up. A template consists of name of student, student ID, year of project, supervisor name, title of project and thesis abstract. Student must fill-up their abstract after get their result. It is implemented on-line so that future students and lecturers can view the abstract more easily. Efficiency, effectiveness, and accuracy of updating information are important.
