Dear Sir,

SUBMISSION OF PROJECT PAPER

I would like to refer the matter as above. Please find attached the project paper entitled "The Influential Factors on Awareness Towards Recycling Programs Implemented by Perbadanan Putrajaya, A Study on Residence In Precinct 9." We hope that this research will fulfill the course requirement for subject ADS 554 as needed.

Your kindness to accept this project paper is very much appreciated.

Thank you.

Yours sincerely,

(NUR EZZA MAIZURA BINTI ABD RAHIM)

ABSTRACT

Recycling is a process to change materials into new products to prevent waste of potentially useful materials, reduce the usage of fresh raw materials, reduce energy consumption, reduce air pollution and water pollution by reducing the need for "conventional" waste disposal, and lower greenhouse gas emissions. On top of that, recycling also is a key component of current waste reduction and is the third component of the "Reduce, Reuse, Recycle" waste hierarchy. The awareness of recycling can help to prevent any barriers that may discourage people from supporting the initiative. This study will discuss about the awareness of Recycling Programs among Precinct 9 Residence that implemented by Perbadanan Putrajaya. The outcomes of this study showed that almost all the influential factors stated does give the contribution towards the awareness of the recycling programs.
