## **ACKNOWLEDGEMENT**

First and for most, I would like to express deepest appreciation to God for giving me strength, patient and courage in completing this academic project.

The gratitude also goes to the backbone of this research which is the supervisor, Sr. Ghazali Bin Md Amin. For his never ending concern and encouragement towards the process in order to complete this research. Without him assistance, probably this research will incomplete and the unsuccessfully fulfill the requirement on doing the research.

Besides that, I really enjoying and having some fun while doing my research there. The prolongs gratitude to my family, especially for my mother Siti Bariyah Binti Ngaliman and my father Azman Bin Muhammad Haron and others family members because give fully support, financial and mental support to me finished this study. Without their help, I would be not having been able to achieve this without their help and prayers.

And, not forgotten to all my lecturers in Department of Building Surveying and all friends in this department, thank you for all the good times that we had shared together. Lastly, thank you very much for everyone that involve direct or indirectly during finishing my research. Thank you very much.

## **ABSTRACT**

This research paper is about the safety awareness on construction in Malaysia. There are many management about safety inside the construction Malaysia. One of the management that the researcher is research about is First Aid Management. This research paper consist of study the construction personnel awareness on the safety and first aid management on construction site. It also to find the action of the respondent and their employer about the safety management on the site. The result from this research will define the level of awareness of construction personnel on the First Aid Management and safety awareness on the construction site. It also want study the what action taken by the construction personnel when there are accidents or incidents happen on the construction site.

## TABLE OF CONTENT

Page

### Chapter 1

#### INTRODUCTION

1.0 Introduction	1
1.1 Problem Statement	2
1.2 Objective	3
1.3 Research Question	3
1.4 Statement of Significant	4
1.5 Methodology	5

### Chapter 2

#### LITERATURE REVIEW

2.0 Introduction	6
2.1 Occupational Safety And Health	7
2.2 Accident on Site	10
2.3 What Is First Aid Management In Construction	13
2.4 The Components In first Aid	14
2.5 Conclusions	19

## Chapter 3

### RESEARCH METHODOLOGY

3.0 Introduction	20
3.1 Research Design And Strategy	20
3.2 Data Analysis	23
3.3 Case Study / Sampling	23
3.4 Conclusion and Recommendation	23
3.5 Step Of Method	24
3.6 Case Study	25
3.6.1 First Case Study	26
3.6.2 Second Case Study	38
3.6.3 Third Case Study	47
3.7 The Interview Case Study	53
3.8 Conclusion	54

## Chapter 4

### DATA ANALYSIS

4.0 Introduction	55
4.1 Detail of Questionnaire	55
4.2 Respondent Of The Questionnaire	57
4.3 Questionnaire Data Analysis	58
4.4 Conclusion	99
