ACKNOWLEDGEMENT

First and foremost, I would like to thank Allah s.w.t for all the blessings that has bestowed upon me. My greatest thanks should go to the lecturers of Universiti Teknologi MARA, - these people are the finest and know no boundaries to help me to become a real person. To Mrs. Dang Merduwati with whom I had the privilege of working with, thank you for have been so patient and understanding.

For my family: Ayahanda, Bonda, Nenenda, Uncle and my Aunt. And to my closest siblings kak Ayu, Abang, Fahmi , and Hana my clasmatte and my most beloved eligible bachelor sister, Ratna, I know you have sacrificed a lot for your little sister. I would like to thank foremost for these wonderful people for being my pillars; the attention, undivided love, and support – you have my eternal gratitude and definitely you are irreplaceable. To the philosopher, psychiatrist and soul mate, Fahrul Hafiz, I'm glad we still stay in the same wavelength throughout this extraordinary journey.

For my dearest friends, Tiq, Ju, Lai, Ugou, JP, Eva, Evy, Jo and Kat Cath, thank you for the support, advice and criticism, I could have not completed this "mini project" without both of your assistance. To Kak Nor (abg Khalid) and kak Su both of you are my lovely sister and always will be my inspiration. I would also like to express my gratitude to all my friends and individuals who have helped me directly or indirectly – there are just too numerous to name all in this short paragraph, but most importantly I will keep all of you close to my heart.

ABSTRACT

This study highlights the new development of technology transfer and training. The researcher employs the new method about the effective training to make a smooth transfer of technology by one place to another place.
