## **ACKNOWLEDGEMENT**

**Alhamdulillah, in the name of Allah the All Mighty, the Most Compassionate, the Most Merciful and the Most Gracious, praise to Allah, the one and only, for giving me patience, strength and ability to complete this research project.**

**First and foremost, I would like to thank Pn. Royagah bt Abdul Majid and my Statistical lecturer Pn Halila Harun because of her guides on what and how to do this project. I also aware deep thanks to my supervisor Pn Nor Hayati bt Abdul Hamid for her guidance, idea, cooperation and patience in assisting my research from proposal up to the completion of the dissertation, and thank her for giving me the opportunity to work under her supervision.**

**I would like to address special appreciation to my beloved parents and my family for their love, care and support that give me strength to learn. Without them I will not be able to finish this research.**

**I also would like to thank the individuals that involved in answering my questionnaires and also in interview sessions for their cooperation in completing this thesis. Besides that, I also wish to thank my friends for their help and support to complete this project.**

**Lastly, my gratitude extends to all individuals who have contributed either directly or indirectly in ensuring the success of this research. Thank you.**

## **ABSTRACT**

The thesis statement for this research was the acceptances students on tutor portal implementation to students' social life and education. There were 2 reasons for this research. First, the researcher wanted to identify student characteristics toward tutor portal acceptances. Second, the researcher also wanted to determine the level of acceptances that influencing the student use on tutor portal application. One of the methods that were chosen by the researcher in order to carry out this study was a survey. About 120 of students were selected randomly to be the sample. The respondents were given a week to fill up the questionnaires. Then, the collected data were analyzed using the Microsoft Word, Microsoft Excel and SPSS applications software. As a result, it was found that tutor portal program did affect students' education. Students lost lots of energy and their social life had also been changed. From the research, it was revealed that tutor portal program was the most ICT education learning used by the students. There were some solutions that could be taken to increase perception and acceptances school community about the ICT learning. The school community could raise awareness and motivation on whole School institution includes teacher activities center, Education resources center, education district center and etc. Finally, campaigns on the consciousness of ICT learning should be held throughout the whole education environments
