Title : The Relationship Between Emotional Intelligence And
Occupational Performance Among Librarians In Public
Libraries, Malaysia

Signature of Student : .....

Date : August 2013

ABSTRACT

This thesis reports the relationship between Emotional Intelligence (EI) and Occupational Performance (OP) of Malaysian Public Librarians (MPLibs). Public librarians are important assets since they are social agents that advocate a knowledge society development in Malaysia. As employees in service organizations, they are expected to be highly dynamic and provide quality services. These jobs involve understanding, communicating, empathizing with and learning from other members working in the organizations. These skills require not only a high degree of intellectual ability but a high level of EI. EI, therefore, seems to be considered essential for library employees understand other people's feelings and for them to be involved in a relationship that will facilitate successful management and performance. This research employs a sequential exploratory mixed-method through semi structured interviews followed by a survey. Phase one of the preliminary study explored the librarians' experiences and perceptions pertaining to EI through face-to-face interviews. Fourteen senior public librarians informed this phase of the study. The qualitative data were transcribed and coded based on Predetermined Concept Choice Mapping data analysis to refine and ascertain research model, variables, hypotheses and EI dimensions. 20 EI dimensions including 2 new dimensions were found and applied by MPLibs and help develop Public Librarian Emotional Intelligence Questionnaire (PubLIBEIQ). The PubLIBEIQ was then used as an instrument in a quantitative cross sectional survey (phase two) to identify the level of EI, and to test the relationship between EI and job satisfaction (JS) and job commitment (JC) of OP of 180 respondents. Descriptive findings showed a high level of EI among MPLibs, where the mean value was in the range of 5.026 to 6.546 on a 7-point Likert. The results of the correlation and regression analyses suggest that all formulated hypotheses were supported. On the other hand, the conceptualized determinants and impacts of OP specifically JS and JC were validated and substantiated. Further analysis involving multiple regression revealed that the strongest predictors of JS are self management and relationship management while self awareness, self management and social awareness are the strongest predictors of JC. Consequently, it is recommended that public libraries develop training programs in order to enhance the EI of librarians and employees in libraries. Theoretical contribution of the research includes development of a theoretical model of self awareness, self management, social awareness and relationship management of EI and an OP framework of MPLibs. Practically, the research reveals the EI competencies which are imperative to contribute the performance of MPLibs. Methodologically, the research illustrates the effective use of the mixed-method approach within the pragmatic research paradigm. The incorporation of face-to-face interview combines subjectivity and objectivity of the problem situation [phenomenon] thus gives a rich understanding of EI within the context of a public service agency in Malaysia.

TABLE OF CONTENTS	v
LIST OF TABLES	xii
LIST OF FIGURES	xvi
LIST OF ABBREVIATIONS	xvii
CHAPTER ONE: INTRODUCTION	
1.1 Overview	1
1.2 Background Of The Research	3
1.3 Problem Statement	
1.3.1 Dimensions for Measuring EI Among Librarians	5
1.3.2 EI and Job Satisfaction (JS)	7
1.3.3 EI and Job Commitment (JC)	9
1.4 Research Questions	11
1.5 Research Objectives	11
1.6 Scope Of The Study	12
1.7 Significance Of The Research	12
1.7.1 Development of a Framework Measuring EI for Librarian	13
1.7.2 To Provide Empirical Evidence	13
1.7.3 Practical Contribution	13
1.8 Definition of Terms	
1.8.1 Emotional Intelligence	14
1.8.2 Occupational Performance	14
1.8.3 Job Satisfaction	14
1.8.4 Job Commitment	14
1.8.5 Public Library	15

1.8.6	Public Librarian	15
1.9	Summary	15

CHAPTER TWO: LITERATURE REVIEW

2.1	Overview	16
2.2	Malaysian Public Libraries	
2.2.1	Historical Background	16
2.2.2	The Roles of Public Library	
2.2.2.1	Informational Role of Public Library	17
2.2.2.2	Educational Role of Public Library	18
2.2.2.3	Political Role of Public Library	18
2.2.2.4	Economic Role of Public Library	19
2.2.2.5	Research Role of Public Library	19
2.2.2.6	Community Roles of Public Library	19
2.3	Malaysian Public Librarians	
2.3.1	Public Librarians	20
2.3.2	Skills And Competencies	22
2.4	Emotional Intelligence	26
2.4.1	Overview Of Emotional Intelligence	26
2.4.2	Scales For Measuring Emotional Intelligence	
2.4.2.1	Emotional Quotient Inventory (EQi)	27
2.4.2.2	Trait EI Questionnaire (TEIQue)	28
2.4.2.3	Mayer-Salovey-Caruso Emotional Intelligence	30
2.4.2.4	The Emotional Competency Inventory (ECI)	30
2.4.2.5	The USM Emotional Quotient Inventory	31
2.4.3	Emotional Intelligence Required By Librarians	37
2.4.4	Emotional Intelligence Required By Malaysian Public Librarians	37
2.5	Job Satisfaction	
2.5.1	Overview of Job Satisfaction	42
2.5.2	Determinants of Job Satisfaction	43
2.5.3	Job Satisfaction Among Librarians	45
2.5.4	Emotional Intelligence and Job Satisfaction	47
