## **ABSTRACT**

---

The rapid development in Malaysia in these recent years has shown that more and more skyscrapers or multi-storey buildings being constructed to fulfill the demands on the office space. The association of health and the working environment in fact, becomes a more critical issue compared to previous years and this issue becomes the main focus of this research. The requirements for a healthy office environment in multi storey buildings are what encompassed in this study, in which a comprehensive research is done to determine the necessary requirements to ensure that the health level in the office is optimum.

This research is divided into 6 chapters with the introduction of this research features in the first chapter. Chapter 2 features the Literature Review, compiling all relevant information as the background study for this research. A comprehensive study on the health factors in the office environment is what explained in Chapter 3 while Chapter 4 reveals the actual condition on the topic based on case studies done. Subsequent to this is Chapter 5, formulating the findings based on case studies and questionnaires that have been distributed to the selected respondents. Conclusion and recommendations to the research are featured in the last chapter which is Chapter 6.

# LIST OF CONTENTS

<b>1.0 CHAPTER 1 - INTRODUCTION</b>	
1.1 Introduction	1
1.2 Definitions Of Terms	2
1.3 Issue	3
1.4 Aim Of The Study	4
1.5 Objectives Of The Study	4
1.6 Scope Of The Study	4
1.7 Methodology	5
<b>2.0 CHAPTER 2 – BACKGROUND STUDY</b>	
2.1 The Function Of Office Building	7
2.1.1 Definitions Of Office Buildings Elements	8
2.1.2 Building Type	9
2.1.3 Internal Environment	10
2.1.4 Space Standards	11
2.2 Health Problems In Indoor Office Environment	
2.2.1 Importance Of Healthy Office Environment	13
2.2.2 Benefits Of Healthy Office Environment	15
2.2.3 Categories Of Health Issues	
a) Air Pollution	15
b) Chemical Sensitivity	16
c) Electro-Magnetic Fields	17
d) Common Causes Of Symptoms And Disorders	

	<b>In The Office Environment</b>	<b>17</b>
<b>2.3</b>	<b>Factors Influencing Office Environment And Health</b>	
2.3.1	Temperature	20
2.3.2	Humidity	21
2.3.3	Ventilation	21
2.3.4	Contaminated Air	22
2.3.5	Smoking	23
2.3.6	Ozone And Photocopiers	23
2.3.7	Sick Building Syndrome	24
2.3.8	Lighting	25
2.3.9	Colour	26
2.3.10	Office Floor Space	26
2.3.11	Welfare Facilities	27
2.3.12	Cleanliness	28
<b>2.4</b>	<b>Consideration Factors On Thermal Comfort Level – Association Of Comfort Level And Health</b>	
2.4.1	Lighting	30
2.4.2	Ventilation	31
	i) Temperature And Personal comfort	31
	ii) Humidity And Personal Comfort	33
	iii) Air Circulation And Personal Comfort	35
2.4.3	Office Planning	36
	i) Personal Space	37
	ii) Spatial Legibility And Order	38
	iii) Communication	38
	iv) Activity	40
<b>2.5</b>	<b>Government Bodies Acting On Health Issues</b>	
2.5.1	NOISH	41
	i) Objectives	41
	ii) Vision	42
	iii) Mission	42
2.5.2	Occupational Safety And Health 1994 (OSHA)	42
<b>2.6</b>	<b>Statutory Regulation</b>	
2.6.1	Uniform Building By-Law, 1984	44

## **CHAPTER 3 – HEALTH FACTORS IN THE OFFICE ENVIRONMENT**

<b>3.1</b>	<b>Office Planning Concept</b>	<b>49</b>
3.1.1	Closed Plan	49
3.1.2	Open Plan	49
3.1.3	Modified Open Plan	52
3.1.4	Zoning Considerations For Office Planning Concept	
i)	Working Area	52
ii)	Core Massing	61
iii)	Private Office Placement And Sizing	62
iv)	Location And Clustering The Workstations	62
3.1.5	Advantages And Disadvantages Of Office Planning Concept	65
3.1.6	Circulation	
a)	Types Of Circulation	67
b)	Planning Consideration Of Effective Circulation Concept	69
<b>3.2</b>	<b>Lighting</b>	
3.2.1	Importance Of Lighting	72
3.2.2	Methods Of Lighting	
a)	Ambient Lighting	73
b)	Accent Lighting	73
c)	Task Lighting	74
d)	Task And Ambient Lighting	74
3.2.3	Lighting Sources	
a)	The Sun	77
b)	Lamps	77
3.2.4	Lighting And Health	
a)	Ultraviolet Radiation	80
b)	Full Spectrum Lamps	81
c)	PCBs And Other Pollutants	81
d)	Fluorescent Lighting And Stress	82
e)	Glare And Reflection	83
3.2.5	Colour And Lighting	84
