ABSTRACT

This study was aimed to study about the effectiveness of roof covering in UiTM Shah Alam. Recently, there are several cases that present situation of roofing problems in government building. The study is based on roof covering material and maintenance programmed for roof and also will focus on the problems that occur on the building. In this dissertation, the main objectives is to identify construction method related to roof covering material and study the problems that occurs in roof covering material. The area of the study is in UiTM Shah Alam campus. So, this study will analyze the effectiveness of each types of the roof covering material in the campus. Finally, the choosing of the case studies will explain for more detail in chapter 4.

CHAPTER 2		
DEFINITION		
2.1	Roof covering in general	13
2.2	Principal materials used in roofs	16
2.2.1	Clay roofing tiles	16
2.2.2	Concrete roofing tiles	16
2.2.3	Slates	17
2.2.4	Asphalt	17
2.2.5	Metals used in roofing	18
2.3	Life of roof covering	19
2.4	Roof slopes	21
2.5	Gutters	22
2.5.1	Eaves gutters	23
2.5.1.1	Cast iron gutters	23
2.5.1.2	Asbestos cement gutters	24
2.5.1.3	Plastic gutters	24
2.5.1.4	Pressed steel galvanized gutters	24
2.5.1.5	Aluminum gutters	25
2.5.1.6	Wrought copper and wrought zinc gutters	25
2.5.1.7	Precast concrete eaves gutters	25
