ABSTRACT

Staying or working in high rise buildings comes with a great risk. A preparedness action should be taken to face the risk of fire in high rise residential buildings. a fire safety program that have been done need to have full support from tenants. A good fire safety program need to be manage by a good management. This can be done by implementing and adapting all necessary action. This program can help tenants to act during fire and know what to do on fire. Knowledge of equipment and knowledge on react is both important to ensure safety and properties.

Abstract	
List of content	
List of figure	
List of Table	
CHAPTER 1	
1.0 Introduction	1
1.1 Introduction	1
1.2 Issue of Statement	2
1.3 Objective	4
1.4 Scope of Study	4
CHAPTER 2	
2.0 Fire Protection	5
2.1 Introduction	5
2.2 Fire Safety Definition	6
2.3 Management Definition	8
2.4 Condominium Definition	9
2.5 Incidence and Cause of Fire	10

2.5.1 Development of Fires	13
2.5.2 Fire Growth	14
2.6 Fire Safety Program	18
2.6.1 Emergency Procedures	18
2.6.2 Fire Evacuation Drills	21
2.6.2.1 Types of Fire Drills	22
2.6.3 Regular Fire Safety Inspection	26
2.6.3.1 Periodical Check and Inspection	28
2.6.4 Maintenance and Servicing of Fire Equipment	31
2.6.4.1 Sprinkler System	31
2.6.4.2 Hose Reel System	35
2.6.4.3 Hydrant System	36
2.6.4.4 Gas Extinguishing (Carbon Dioxide System)	37
2.6.4.5 Fire Detection and Alarm Panel	42
2.6.4.6 Portable Fire Extinguisher	43
2.6.5 Staff and Tenants Training	44
2.6.6 Fire Safety Register	46
2.6.7 Emergency Planning	47
2.7 Means of Escape	50
2.7.1 Elements of the Means of Escape	51
2.7.2 Information Required to Design a Means of Escape from Fire	52
2.7.2.1 Time of Evacuation	53
2.7.2.2 Number of Occupants	53
2.7.2.3 Density Factor	54
2.7.2.4 Person who may use the Building	55
2.7.2.5 Calculating the Number of Occupants	55
2.7.3 Travel Distance	56
2.7.3.1 Places of Relative Safe	58
2.7.3.2 Places of Ultimate Safety	59
2.7.2.3 Travel Distance in One Direction Only	59
2.8 What to do if Fire Strikes	59
2.9 Uniform Building by Laws 1984 Key on Fire	60

CHAPTER 3

3.0 Research Methodology	63
3.1 Introduction	63
3.2 Research Method Selection	63
3.2.1 Literature Review	64
3.3 Questionnaire Design	64
3.4 Interview design	65
3.5 Site Observation	65

CHAPTER 4

4.1 Case Study 1 (Kemuncak Condominium)	69
4.1.1 Building Background	69
4.1.2 Committee members	71
4.1.3 Maintenance Fees	71
4.1.4 Facilities	72
4.1.5 Fire Safety Equipment	73
4.2 Case Study 2 (Kristal Condominium)	75
4.2.1 Building background	75
4.2.2 Committee members	76
4.2.4 Maintenance fees	79
4.2.5 Facilities	80
4.2.6 Fire safety equipment	81
4.3 Case study 3 (Palmville Condominium)	81
4.3.1 Building background	81
4.3.2 Committee members	83
4.3.3 Maintenance fees	83
4.3.4 Facilities	84
