ABSTRACT

Malaysia is a country that encompasses its own unique identities. Efforts have been carried out to develop and upgrade the travel and tours infrastructure in order to bestow the positive image from the foreigners and tourists and the locals as well. This is to show that Malaysia has everything best that can be offered to the industry and will suit to their each and every needs and expectation. One of the alternative and ideas from the government is to upgrade the infrastructure that relates closely to this industry especially the public toilets at places that attract tourists the most. This effort will hope to raise the image of Malaysia and the people. It is common in Malaysia to come across the main issue of the public toilets which is the low level of cleanliness and poor uncomfortable condition. The objective of this study is to recognize the characteristic of clean toilets, to identify the right and effective procedure of maintaining public toilets. Design aspect and its characteristic is also should be considered to ensure the ease of maintenance and suitable for users of all ages especially the disabled. From the study carried out, the result shows that public in general prefers to use the conventional public toilet due to its high privacy condition. Meanwhile, the characteristic of the Automatic Street Unit is more potential to be developed as its general condition is clean and satisfying. This is because the maintenance procedure being implemented to this unit is different from the usual procedure for the conventional public toilet. In conclusion, the cooperation from everybody is truly appreciated to achieve the government's vision and mission in providing a better toilet facility in our country especially in Kuala Lumpur.

LIST OF FIGURES	viii
LIST OF ABBREVIATIONS	xiv

CHAPTER 1: INTRODUCTION

1.1 GENERAL	1
1.2 AIM AND OBJECTIVES OF RESEARCH	3
1.3 PROBLEM STATEMENT	5
1.4 SCOPE OF STUDY	6
1.5 LIMITATION OF THE RESEARCH	7
1.6 RESEARCH METHODOLOGY	7
1.6.1 Primary Data	7
1.6.1.1 Questionnaires	8
1.6.1.2 Interviews	8
1.6.1.3 Observation	8
1.6.2 Secondary Data	8
1.6.3 Collecting and analysis of information	9
1.7 SOURCES OF DATA	10
1.8 SUMMARY OF RESEARCH METHODOLOGY	11
1.9 STRUCTURE OF DISSERTATION	12
1.9.1 Chapter 1: Introduction	12
1.9.2 Chapter 2: Literature Review: Theoretical Study on Public Toilets in Kuala Lumpur: The Design Layout and Maintenance Works	13
1.9.3 Chapter 3: Research Methodology	13
1.9.4 Chapter 4: Case Study	14
1.9.5 Chapter 5: Findings and Analysis	14

**CHAPTER 2: THEORITICAL STUDY ON DESIGN LAYOUT AND
MAINTENANCE WORKS FOR PUBLIC TOILET**

2.1 INTRODUCTION	16
2.1.1 Definition of Maintenance	17
2.2 OBJECTIVE OF MAINTENANCE MANAGEMENT	18
2.3 TYPE OF MAINTENANCE	22
2.3.1 Maintenance Management	22
2.3.1.1 Contingency System	23
2.4 MAINTENANCE POLICY	25
2.4.1 Objectives	26
2.4.2 Benefits	26
2.4.3 Policies	27
2.5 MAINTENANCE STANDARD	28
2.6 MAINTENANCE OBJECTIVES	31
2.7 LIFE CYCLE COST	33
2.8 MAINTENANCE COST	35
2.9 THE INFLUENCE OF DESIGN	36
2.9.1 Definition of Design	36
2.9.2 The Role of the Designers	37
2.10 PUBLIC TOILET DESIGN AND LAYOUTS	39
2.10.1 Personal Hygiene and Design Needs	39
2.10.2 Social and Psychological Aspects of Public Facilities	41
2.10.3 Planning and Design Criteria of Public Facilities	42
2.11 ADAPTABLE UNIVERSAL DESIGN	47
2.11.1 Space Planning	47
2.11.2 Design Guidelines and Bathroom Planning	55
2.12 BATHROOM SAFETY	64

CHAPTER 3: RESEARCH METHODOLOGY

3.1 INTRODUCTION	67
3.2 RESEARCH METHODOLOGY	69
3.3 SELECTION OF RESEARCH TITLE	69
3.4 DATA AND INFORMATION COLLECTION	70
3.4.1 Primary Data	70
3.4.1.1 Research Instrument	71
3.4.1.2 Processing Procedure of Primary Data	76
3.4.2 Secondary Data	78
3.4.2.1 Processing Procedure of Primary Data	77
3.5 DATA ANALYSIS	79
3.5.1 Statistic Frequency Analysis Procedure	79
3.5.2 Likert Scale Analysis	80
3.6 CONCLUSION AND RECOMMENDATIONS	82

CHAPTER 4: CASE STUDY

4.1 GENERAL	83
4.1.1 Kuala Lumpur City	83
4.2 CASE STUDY	87
4.2.1 Titiwangsa Lake Gardens	87
4.2.2 Chow Kit	90
4.2.3 Puduraya Bus Terminal	92
4.2.4 Jalan Sultan Ismail	94
4.2.5 Jalan Raja Laut	96
4.3 AUTOMATIC STREETS TOILET (AST)	98
4.3.1 Automatic Street Toilet (AST)	98
4.3.2 Characteristic of the Automatic Street Toilet	100
4.3.3 Project Data	101
