Handicraft,more expressed as artisanic handcraft, sometimes also called artisanry,is a type of work where useful and decorative devices are made completely by hand or by using only simple tools. It is a traditional main sector of craft. Usually the term is applied to traditional means of making goods. The individual artisanship of the items is a paramount criterion; such items often have cultural and/or religious significance. Items made by mass production or machines are not handicraft goods. Gallery is a small privately qwned shop or studio where you can see and buy pieces.
