## ACKNOWLEDGEMENT

First of all, praise to god for giving us strength and making it possible for us to complete this project paper within the time given without much problem. I also would like to thank those people that contributed for the completion of this study. Without this encouragement and support, this research would not be complete.

I would like to extend my deepest appreciation and gratitude to our lecturer, Mdm. Dayang Siti NoorSaufidah and my supervisor Mr. Mat Zin Mat Kib on their guidance, construction ideas, invaluable cooperation, patient and encouragement throughout the period of complementing this research.

Last but not least, I would like to take this opportunity to thank to my beloved family who has never failed in giving me their constant support during the course of my study. To all my friends who always there when I need them, may god will always be with us.

Thank you.

## ABSTRACT

*The purpose of this study is seeing the factor that might influenced the leadership behavior based on gender among workers in government and private sector in Kota Kinabalu area. There are 100 respondents that have been chosen randomly to participate in this study. The research objectives are to identify if there is any differences between male and female leadership behavior and the factor that might influenced the behavior.*
