TABLE OF CONTENTS

ABSTRACT

ACKNOWLEDGEMENT

CHAPTER ONE : INTRODUCTION

1.0 Introduction	1
1.1 Problem Statement	3
1.2 Objective	5
1.3 Research Question	5
1.4 Conceptual Framework	5
1.5 Significant of Study	6

CHAPTER 2: LITERATURE REVIEW

2.1 Factors Influencing Adults to Choose Dietary Supplements	7
2.1.1 Health Motivation	7
2.1.2 Improving Athlete Performance	9
2.1.3 Product Marketing Strategies	10
2.1.4 Psychological	12
2.2 The Benefit and Risk of Dietary Supplement Intake Among Adults	13
2.2.1 Multivitamin	13
2.2.1.1 Vitamin A	14
2.2.1.2 Vitamin C	15
2.2.1.3 VitaminE	16
2.2.2 Mineral	18
2.2.2.1 Calcium	18
2.2.2.2 Magnesium	18
2.2.2.3 Iron	20
2.2.3 Botanical	20
2.2.3.1 Ginseng	21
2.2.3.2 OrthosiphonStamineus	22
2.2.3.3 Ginkgo Biloba	23

CHAPTER 3: RESEARCH METHODOLOGY

3.0 Introduction	25
3.1 Types of Research and Research Design	25
3.2 Data Collection Method	25
3.3 Sources of Data	25

CHAPTER 4:DISCUSSION

4.1 Factors Influencing Adults to Choose Dietary Supplements	26
4.1.1 Health Motivation	26
4.1.2 Psychological on Personal Appearance	27
4.1.3 Improving Athlete Performance	28
4.1.4 Product Marketing Strategies	28
4.2 The Benefit and Risk of Dietary Supplement Intake among Adults	29
4.2.1 Benefit	29
4.2.2 Risk	30

CHAPTER 5: CONCLUSION& RECOMMENDATION

5.1 Limitation of Study	32
5.1.1 Less Related Journal	32
5.1.2 Time Constraint	32
5.2 Implicatio and Conclusion	32
5.2.1 Objective 1: To Determine the Influence Factors On Dietary Supplement Consumption Among Adults	32
5.2.2 Objective 2: To Identify the Benefit and Risk of Dietary Supplement Intake Among Adults	33

ABSTRACT

Dietary supplements are one of the biggest trends in the healthcare industry whereby the consumers are now taking charge of their health and they are seeking alternative medicine.

This also may include ingredients such as vitamin, minerals, amino acids, natural plant substances and animal origin, substances with nutritional or physiological function. Basically, the products are used for many purposes such as to promote the overall health and energy, provide immune system support, thin out the risks of sickness and age-linked conditions, and improve performance in athletic and mental actions as well as to sustain the healing process during illness and disease. These aims to identify the influence factors on dietary supplements consumptions among adult and also discuss about the benefits and risk of dietary supplements intake among adults. This study has been conducted by using a conceptual approach where all the information was gathered from previous research. The result revealed benefit and risk is the main factor to contribute the main factor to contribute the consumption of dietary supplements
