5. FINDINGS AND DISCUSSION

From the analysis, the themes are identified easily when look at the formal element. Haron Mokhtar tends to synchronize the themes with the subject matter, colors and title of the artwork. The first theme is self-experience where he reveals the images his past time or childhood such as playing kites, school children crossing the bridge and image of mother taking care of her children. For the cultural expression he used the images of traditional houses or buildings such as Merlimau House and colonial building in Penang. Then, it will be matched with the material culture or socioeconomic activities. For the Islamic expression, the images of mosque, *kopiah*, tuban, robe and scarf are painted. Then the title such as 'Masuk Waktu' and 'Zahir Mosque' also had helps a lot to strengthen the theme of the artwork. He is also themed the color according to the themes of the paintings. For self-experience the colors used are earth color such as brownish, bluish and greenish. This color gives certain feeling and mood of nostalgic and memory. Warm color of red and yellow are used to express the cultural expressions. While for the Islamic expression, both cold and warm colors are applied to convey certain message or content.

6. CONCLUSION AND RECOMMENDATION

Haron Mokhtar is a great Malaysia Pop artist who employed the themes of self-experience, cultural expression and Islamic expression that reflect to the image of identity of Malaysia, with the Pop Art style of the color presentation. His contribution in art should be marked in Malaysian art history. Then, more research and writings should be carried out on Malaysian artists. Artists are thinkers and their artworks are manifestation of their thoughts. There are many producing artists this time, working with their works and struggling to express their ideas. It will be a loss to Malaysian, specifically artists, if these ideas and thoughts were not recorded and documented. More researches on artists, as case studies, should be carried out.
