ACKNOWLEDGEMENTS

First and foremost, we wish to thank Almighty Allah, because of His blessings, we had granted with good health and were able to finish this challenging assignment. Not to forget we would also like to express our highest gratitude to our supervisor of this research, Mr. Irmohizam Bin Ibrahim who had helped us from the beginning to the completion of this task. We are appreciatively blessed by his presence and tolerance.

Not to forget, a high appreciation goes to Madam Norha Bt Abu Hanifah and Puan Azlena Bt Khalid as they have kindly assisting us regarding to this topic.

Our greatest thank and love goes to our parents- an Emeritus Professor in the 'University of Life'. These noble people in our lives always gave us moral and monetary support to us. Our sincere appreciation thanks goes to them.

ABSTRACT

This research was conducted to determine to what extent the application of the Kyoto Protocol in Malaysia together with the latest issues pertaining to the global warming. This topic was preferred because it had never been brought up for a detailed discussion. Therefore, this topic needs more discussion and enlightenment for future benefits.
