ACKNOWLEDGEMENT

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of ALLAH S.W.T., Most Gracious and Most Merciful.

We, Nur Amin bin Abdullah and Hanisah binti Mohd. Jali, would like to express our greatest gratitude sincerely to a wide range of people who have offered us their assistance in the preparation of this project paper. First and foremost, we would like to convey our highest appreciation and thank to our supervisor Puan Noraini binti Mohd. Shah who has given us guidance, opinions and support for the completion of this project paper.

We owe special words of thanks to all those who agreed to be interviewed, formally and informally and gave us the benefit of their knowledge, views and experiences. Their names are by no means exhaustive. It is too long to list down all and unfair to mention some. Here we would like to express our greatest gratitude and appreciation to those were directly or indirectly involved in making this project a total success, without which, it would not have seen the light of the day.

Last but not least, to our beloved parents for their encouragement and untiring inquiries are indeed our main sources of inspiration.

Thank you.

ABSTRACT

This project paper is a study of the rights of Muslim mothers toward the custody of their children in Malaysia. The law that governs this right is Islamic Family Law Act that provides mother as the best person entitled towards the custody of an infant child. However, this right is not absolute. There are various circumstances which deprive this right.

Therefore, this project paper is to determine the factors that court will take into consideration in granting custody and to propose relevant recommendations to overcome this matter.
