Universiti Teknologi MARA

Faculty of Law

April 2010

The students/authors confirm that the work submitted is their own and that appropriate credit has been given where reference has been made the work of others.

## Acknowledgment

"In the name of Allah, the most Gracious, the most Compassionate"

First and foremost, we would like to express a very special thanks and appreciation to our supervisor, Madam Azni Mohd Dian for being the most understanding, helpful, and patient lecturer we have come to know.

We would also like to express our deepest gratitude to Madam Habibah Kiprawi and Assoc. Prof Norha Abu Hanifah in helping us to carry out this study. Without their help and support, this paper would likely hit the dead end. Not forgetting our parents, thank you for always being by our side to support us all the way. Without their worthless sacrifices, we would not be able to reach the present position.

Last but never the least, we also owe special thanks to our friends who have always been there for us and extended every possible support during this research and to everyone who involve in making this project paper a success.

Thank You.

## **Abstract**

53 years of freedom from colonization does not make Malaysia stops from trembling with the issue of squatters. With a focus on Wilayah Persekutuan Kuala Lumpur, this research looks at the eviction procedure of squatters run by Dewan Bandaraya Kuala Lumpur as well as some problems which restrain the eviction procedure from being successful.

This research describes the power of the local council and challenges they need to overcome in handling squatters' matters. However, it is not clear that the current law could help effectively in achieving the mission of Zero Squatters 2010. It further suggests that the law exist should be clarified in order to curb the loopholes and to be complied with the practice of the eviction procedure itself.
