ABSTRACT

The purpose of this study was to identify whether the factor of teamwork is contribute to the organizational performance. The selected organization was Perusahaan Otomobil Nasional Sdn. Bhd. This correlation research was to determine whether there is any relationship that exist between variables with the existence of correlation. Staff at Supplier Quality Department of Perusahaan Otomobil Nasional Sdn. Bhd. is the sampling frame while the population of 119 employees, 100 respondents have given feedback. In addition, the internal consistency using Cronbach's Alpha are also use to verify the measurement used later in the Chapter 4. The unit of analysis is individual with instrument of Likert Scale question. Therefore, Statistical Package for Social Science (SPSS) version 22.0 to compute the correlation of the variables is used to collect data from the questionnaire. This research should make a contribution towards the relationship between teamwork factor towards organizational performance in an organization. The result of research shows that all variables are significant correlated with another thus the hypothesis were accepted and another thus the hypothesis were rejected.

ACKNOWLEDGEMENT

First and foremost, I would like to be grateful to Allah s.w.t by reason of giving me chance to complete this research in fixed period and giving me a good health along this time being. I have an obligation to acknowledge these all people who gave valuable cooperation, assistance and advices in a way to complete this research.

First of all, I would like to give a big thank to Miss Nooradzlina binti Mohd Pauzi with her research advise and providing me with all necessary information and knowledge in order to complete this research. Her cooperation and guidance during consultation period is much indeed appreciated.

I take this opportunity to express gratitude to Group Quality Department, Supplier Quality Planning Section for giving an offer and opportunity for being part of their team members for these four months. The special thanks goes to the manager, Mr. Mohamad Khir bin Abdul Latif for guiding me in doing my internship in which his supervision and support that he gave truly helped the progression and smoothness in finishing this thesis.

Great deals appreciated also go to the contribution of my university which is Universiti Teknologi MARA (UiTM) Machang Campus. Last but not least I would like to thank all my friends for sharing a lot of knowledge and provide a lot of information that help me in finishing this research. Not forget the final tribute and appreciation for my family members especially my parents that always support me, prayers and encouragement during my study. With the respondents that took part on answering my questionnaire, I am very grateful for their cooperation and kindness.

Lastly, to anybody that I am not mentioned here, I would like to thank to everybody that support me emotionally and physically as they also contribute to the accomplishment of this research. To my fellow friends especially my group members thank you for all your support and ideas. May Allah bless all of you.
