ACKNOWLEDGEMENT

In performing, my assignment I had to take the help and guideline of the person who involve in our task and the completion of this assignment that gives me more pleasure and knowledge about my practical training at Building Control Department, Majlis Perbandaran Seremban. I would like to show my gratitude to my practical coordinator Sr. Mohd Nurfaizal Baharuddin and Sr. Nazhaltulzalkis on the briefing of our practical training and gives us a good guideline for our report. I also want to thanks to my supervisor Sr Dr Alia Bt Abdullah Saleh for the guidance in completing this report and numerous of consultation during my practical training. I would also like to expand my deepest gratitude to my supervisor of the company, En.Hadzeeq Ekhwan Bin Radzali and one of the Architect Officer, En.Samsudin Bin Mat Jusoh for guidance and any kind help.

Besides that, gratitude to all those people who have directly and indirectly guide me in writing this report. Thanks especially to my classmates which give ideas and help whenever I need.

ABSTRACT

In semester 6, students of Diploma in Building Surveying are required to undergo Industrial Training at any firm or company that are related with their course to gain experience and more knowledge. The purpose of industrial training is to expose students to the real work of environment experience and at the same time, to gain the knowledge through hands on observation and job execution. From the industrial training, the students will also develop skills in work ethics, communication, management and others.

Students also need to prepare a report that related with the industrial training. So that, this report is about Certificate of Completion and Compliance for public building.

Generally, any constructed building in Malaysia needs to have the certification that affirms it is safe and fit for occupation. This certification is only issued once its construction complies with legal provisions, the approved building plan and also conditions stipulated by the Local Authority at plan approval stage. It is an offence for someone to occupy a building, whether a commercial building or residential building without certification.
