ACKNOWLEDGEMENT

Bismillahirrahmanirrahim...

First of all, I would thanks to Allah S.W.T because with His blessing I have opportunity to complete this project paper on time even I have to face many obstacles in order to complete it. Without His blessing maybe I do not have capability to complete this assignment.

Meanwhile I also want to express my full thanks to Mr. Mazlan Zawawi, as my supervisor at Binaraya PKINK Sdn Bhd and both of my advisors, Prof. Madya Hajah Yasmin bt. Hassan and Dr. Zurina bt Ismail. All of them had guided me in many things in order to complete this project paper and this makes me learn new things in this marketing area. Without their helps, I know that I cannot do this report proper with successful. Then, not forget, there are millions of thanks to all Business Administration lecturers' that always give the support by sharing their knowledge and expertise in respectively field. All effort that they give to all students is definitely want to see that all of students can present the best work as they can.

Last but not least I also want to express my thanks to my beloved parents and family because give full support while completing my project paper. I also would like to thanks for those helps in completing my research proposal by directly or indirectly.

Thanks you.

ABSTRACT

The aim of this study is to identify the Factors Influencing Purchasing Decisions of House Purchaser: A Case Study at Binaraya PKINK Sdn. Bhd. There are fourth factors that will be studied, which are price, design, family size and quality. This study also conducted to examine what is the most influence factor that influencing customers' purchasing decision among the house purchaser at Binaraya PKINK Sdn. Bhd. Moreover, questionnaires have been used in order to get feedback from customers. Then, the researcher will analyze the data from questionnaires using Statistical Package for Social Science 16.0 Students Version. The data will interpret and test using frequency distribution analysis and mean. Other than that, hypotheses will be test using correlation analysis, correlation coefficient and multiple regressions. Researcher will distribute 100 questionnaires to select Binaraya PKINK Sdn. Bhd. customers who deal with this cooperation. The collecting data is then tested on its Frequency analysis. Next, analyze using Reliability analysis and Hypotheses analysis. The findings of this paper revealed that the most factor that influence purchasing decision among of house purchaser is quality factor. Based from the result obtained, researcher suggest some recommendations that can help Binaraya PKINK Sdn. Bhd to increase the standard of houses that it offered to customers and able to compete with others competitors in the current real estate market.

LIST OF FIGURE	x
ABSTRACT	xi
CHAPTER 1: INTRODUCTION OF RESEARCH	
1.0 Introduction.....	1
1.1 Background of the Company.....	1
1.1.1 Company Vision.....	2
1.1.2 Company Mission.....	2
1.2 Background of Study.....	2
1.3 Problem Statement.....	4
1.4 Research Objectives.....	6
1.5 Research Questions.....	6
1.6 Theoretical Framework.....	7
1.7 Hypotheses.....	8
Hypothesis 1.....	8
Hypothesis 2.....	8
Hypothesis 3.....	8
Hypothesis 4.....	8
1.8 Significance of Study.....	9

1.8.1 House Developer Company.....	9
1.8.2 Researcher.....	9
1.8.3 University.....	10
1.8.4 Real Estate Industry.....	10
1.9 Definition of Terms.....	11
1.9.1 Customers' Purchasing Decision.....	11
1.9.2 Price.....	11
1.9.3 Design.....	11
1.9.4 Family Size.....	12
1.9.5 Quality.....	12
1.10 Limitations of Study.....	13
1.10.1 Respondents Refusal to Answer the Questions.....	13
1.10.2 Limited Exposure of Information.....	13
1.10.3 Lack of Experience.....	13
1.11 Scope of Study.....	14

CHAPTER 2: LITERATURE REVIEW

2.0 Introduction.....	15
2.1 Customers' House Purchasing Decision.....	15
2.2 Price.....	18
2.3 Design.....	22
2.4 Family Size.....	26
2.5 Quality.....	29

CHAPTER 3: RESEARCH METHODOLOGY

3.0 Introduction.....	33
3.1 Research Design.....	33
