ACKNOWLEDGEMENT

“In the Name of Allah, the Most Gracious, the Most Merciful”

First and foremost, Alhamdulillah, at last I am able to complete this report. Whilst, accepting full responsibility for the contents of this work, it would be churlish not to acknowledge the debt I owe to all those who directly and indirectly contribute to this writing. It has been the most fruitful experience to have been able to do this research.

Here, I would like to thank my advisor, Puan Nurazleena binti Ismail for his valuable guidance and assistance in addition of his valuable ideas in making this study possible. I am greatly indebted to her for helping me to overcome every possible obstacle in the process of conducting this project paper as well as for his patience. Puan Nurazleena binti Ismail has instructed me in a very inspiring and motivating manner, maintaining a good balance between good criticism, encouragement and passion.

I would also like to express my appreciation and thank to my second examiner, Dr. Zulkifli bin Mohamed, who had contributed in giving ideas and opinion directly in the completion of this study and for analyzing the progress of my work.

Not to forget to the staff of Persatuan Nelayan Kawasan Kuala Terengganu Selatan (PNKKTS) for the full cooperation and a lot of guidance in providing relevant materials about this topic and information.

My special thanks to my friends, Asmida and Zati Iwani for their continuous believe and encouragement throughout my study. Also I am grateful to Anis Hidayu, Rahema, Fatimah Zahra' and Siti Nursyairah for helping me get through the difficult times, and for all emotional support, entertainment and caring they provided. Finally my deep appreciation goes to my beloved parents, Othman bin Hussin and Faidah binti Hj Abd Rashid for their invaluable encouragement and support. As a final point, I really hope that my masterpiece would be beneficial to those who are interested in this topic.

Thank You.

ABSTRACT

The main idea behind new economic model (NEM) is to achieve Vision 2020. Vision 2020 is to develop high income nation in year 2020. The NEM will create a framework to the Malaysia in the future that will be renowned for vibrant transformation arising from the resourcefulness of its people exemplified by its harmonious diversity and rich cultural traditions. In addition, new economic model also will provide the framework and environment to engender the entrepreneurial spirit to make the most of growth opportunities from available financing. New economic model will provide modus operandi to Lembaga Kemajuan Ikan Malaysia and Jabatan Perikanan Malaysia to be more develop sector in the future. Nowadays, fishery sector plays important roles to the growth of Malaysia's economic. Built on the perception studies framework, the purpose of this study is to investigate the successful new economic model implementation through improvement of fishery sector. The improvement of fishery sector is measured by subsidies,loans or financial supports,fishing equipment and lack of ice or freezer room. The target population of this study is all fishermen in Terengganu and members of Persatuan Nelayan Kawasan Kuala Terengganu Selatan(PNKKTS). Based on the regression results,subsidies,loans or financial supports and fishing equipment have positive significant effects on improvement of fishery sector in order to implement New Economic Model to be successful. However, lack of ice or freezeer room have no significant relationship on improvement of fishery sector. Moreover, based on the hypothesis testing it also show that, only subsidies,loans and fishing equipment have significant relationship on improvement fishery sector towards successful New Economic Model implementation. Referring to this relationship, it can be presumed that improvement fishery sector in terms of subsidies,loans and fishing equipment give positive effect to the successful New Economic Model implementation.

Keywords: *New Economic Model, fishery sector, subsidies, loans, fishing equipment, ice or freezer room.*
