ACKNOWLEDGEMENT

Alhamdulillah....

All praises to almighty Allah, the most merciful and most benevolent for giving me the strength and patience in completing this project paper.

A special gratitude to most respectful advisor, Pn. Yuslizawati Binti Mohd Yusoff for her valuable advices, suggestions and guidance in every stages of this project paper, also for her time and efforts in ensuring the progression of this study.

My thanks also go to my beloved parents for their hard support and useful advice especially in completing my project paper. I believed without their blessing, I would not have the strength and ability to make it like this far.

Last but not least, I like to take this opportunity to express my enormous gratitude to those who have contributed whether directly or indirectly in completing this project paper especially to all friends.

Thank You Very Much...

NURULHUDA BINTI ZAINAL

ABSTRACT

The aim of this research is to examine the impact of FDI and trade toward Malaysian economy. The research also examine the relationship of the variable that are use to measure the impact of FDI and trade to economic growth. The variables that use are the GDP, trade balance and FDI inflows in Malaysia. This paper covers 31 years study that taken in yearly basis data started from year 1975 to 2005 which means 31 data. The data will be tested by using multiple regression method and correlation test to measure the hypotheses of the study.

According to the previous study found that the FDI and trade have a positive relationship for economic growth in the long run. It is expected that the study will also have a positive relationship between those variables. Thus will lead to positive impact to Malaysian economy.
