ABSTRACT

This research is to investigate the awareness level of Halal Management Part 5 UiTM Puncak Alam students on *wasiyyah* practice. *Wasiyyah* very important to the society and to the testator of *wasiyyah* itself. However, people tend to care less about *wasiyyah* practice in Malaysia. *Wasiyyah* also one of the important areas in Islamic estate planning that could affect the statistics of unclaimed assets in Malaysia. The objectives of this study are to study the concept of *wasiyyah*, to examine the awareness level on *wasiyyah* and to identify the barriers in Islamic inheritance distributions in Malaysia. The methods that used for this research are quantitative, which the researcher gave questionnaires to the students and the scope of the survey is Halal Management Part 5 students. In addition, the researcher analyses the data using Statistical Package for Social Science (SPSS) to measure the validity. The descriptive analysis and content of reading material and relevant supporting standard.
