ACKNOWLEDGEMENT

بِسْمِ اللّٰهِ الرَّحْمٰنِ الرَّحِیْمِ

Assalamualaikum.....

Firstly, I would like to praise to Allah s.w.t for his blessings given to me to finish this thesis completely. I also would like to thanks to my grateful advisor, Sir Wan MuhdFaez Bin Wan Ibrahim for his academic and professional advice in helping me to finish and complete this thesis. They have given me a lot positive feedback regarding this research.

I also like to express my appreciation to all lecturers and my friend that help me to finish this thesis. Not to forget, thanks also to Mrs. ShamsiahCheRos from Department of Insolvency, Putrajaya because willing to spend time to me and provide information to me and give data about bankruptcy in Malaysia.

Finally, I would like to express say thanks to my family who has participated in giving me positive comments and supporting words in helping me to complete this thesis. Their contributions are highly appreciated and will be well remembered.

Thank you.

Abstract

Nowadays, the number of bankruptcy is increase year by year. One of the serious bankruptcies in Malaysia is credit card bankruptcy. The aim of this research is to study or to examine the causes of credit card bankruptcy in Malaysia. In this research paper, the researcher chooses four independent variable that is consumer spending, interest rate, unemployment rate, and also inflation rate. Researcher use secondary data to complete this research paper and also use Microsoft excels and Statistical Program for Social Science (SPSS) to do the investigation and to get the result. In this research, all the independent variable is significant relationship with the dependent variable that is credit card bankruptcy. But three of the independent variable that is consumer spending, unemployment rate, and also inflation rate get negative relationship with the credit cards bankruptcy.
