Dear Sir

SUBMISSION OF APPLIED RESEARCH REPORT

Regarding to the above subject matter, I hereby submit my research report with the title

"A study on the Factor that Influence Teachers at Secondary Level in Using IT in Their

Teaching its Relationship with Their Job Satisfaction". This final report is requirement

for the completion of Applied Research (ADM 655) subject, which is required by Faculty
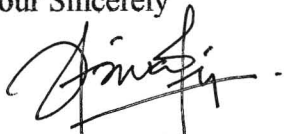

of Administration and Law.

I have done through study and investigation for preparing this final report. I believed through this analysis and very valuable findings can contribute to faculty and the Education Department Office itself.

Therefore, I hope this report will fulfill the requirement of Research Applied (ADM 655). I am also apologizing of any mistake or omissions in doing this report.

Thank you,

Your Sincerely

(RAFIKAWATI BINTI ROHANI)

ABSTRACT

Use of information technology in teaching process is important nowadays. By use of information technology, it may increase teachers' satisfaction towards their work. Therefore, these studies are examines the factors that will influence teachers in using IT and their relationship with their job satisfaction. A sample of 50 teachers in SMK Dato' Haji Mohd Redza Seremban Negeri Sembilan was given the questionnaire. The studies try to find the factor influence teachers using IT and relationship with motivation, job satisfaction, facilities available and other variables. Instead of self-administered questionnaires, other methods of research that have been used in this study are data collection and Statical Package for Social Science (SPSS). The finding is hopefully can contribute and help this school in order to plan activities increasing teachers perceptions towards Information Technology.
