## ACKNOWLEDGEMENT

In the name of Allah  
The Most Gracious and The Most Merciful

Firstly, I would like to thank Allah for His blessings and guides in order for me to complete and release this report.

Here I would to express my deepest gratitude to every single person who has involved in this report directly or indirectly especially to my thesis supervisor, Puan Itaza Afiani Bt Mohtar have given me her trust, support, motivation, and useful ideas. She has been really kind in helping me to understand this significant of the whole project including given me the information as needed. I have learned a lot during this journey and hoping to gain more knowledge as time passes through.

I would like to thank my thesis advisor, P.M. Dr. Puteri Nor Hashimah Bt Megat Abdul Rahman. She is the one who responsible in handling the CSP 650 subject. She has gave us loads of information regarding how this thesis should be in terms of the contents, formats etc. Thanks also to all lectures from Department of Computer Science UiTM Perak and to all classmates who has given me their support.

Last but not least, I would like to say thanks to my beloved parents since they are the only inspiration for me in this given life.

Thank you, may ALLAH bless all of you.
