ACKNOWLEDGMENT

Bismillahirrahmanirrahim

In the name of ALLAH

The most Gracious and the most Merciful

Firstly I would like to express my gratitude to Allah for His Blessing in giving me the perseverance and the opportunity to complete my final report during the time and period.

My greatest appreciation goes to my supervisor, Puan Itaza Afiani binti Mohtar for her support and helps. Her ideas have opened my mind and her guidance to make me understand this project topic from the initial level has been much appreciated. Without her guidance and persistent help this project would not have been possible.

Special thanks to Dr P.M. Dr.Puteri Nor Hashimah Binti Megat Abdul Rahman for giving the direction from the initial stage until the completion of this project proposal. Without her advice, care, and help I would not have completed this work.

I am heartily thankful to my family for their love, encouragement and financial support. Not to forgotten to all my friends, lecturers and staff of FSKM, Bahagian Pengambilan Pelajar UiTM Shah Alam, and Unit Kaunseling UITM Perak who were very helpful in giving me the relevant information, ideas and also moral support.

May Allah reward all of you and bless us all. Thank you.
