ACKNOWLEDGEMENT

All praises to ALLAH S.W.T for all His bless that I had during my project completion. Without His help this project could not have been accomplished as well as it supposed to be.

First of all I would like to address my deepest appreciation to Prof Madya Dr Puteri Nor Hashimah Binti Megat Abdul Rahman for her supervision, advice, guidance, encouragement and insightful comments given throughout the course of completing this project.

I also would like to thank all my fellow friends for their moral support given throughout the entire semester. Without their continued support and interest, this project would not have been realized.

Last but not least, my gratitude also goes to all my family members especially my parent, Mohd Hofni Bin Abdul Rahman and Fauziyah Binti Abdullah for their continuous encouragement and support.

Thank you, may ALLAH bless all of you.
