## ACKNOWLEDGEMENT

Assalamu'alaikum Warahmatullahi Wabaraqatuh.

Alhamdulillah, praise to Almighty Allah S.W.T for blessing me with strength and health, during the process of completing this research project

Firstly, I would like to express my sincere gratitude and warmest thanks to my advisors Madam Wan Hasni Bt Wan Hassan and Madam Norsilawati Bt Hassan for their commitment, cooperation, consideration, patience, kindness, knowledge, advices and helping me in conducting and completing this assignment.

Secondly, I gratefully acknowledge the love and support from all my family members. I am always grateful for all my parents' sacrifices in raising me up with the useful education. They always give me support in terms of money and morale perspectives and always been there for me through thick and thin. Again, I would like to express my bunch of thank you to them.

Then, I would like to thank my closest friends for their support and help that they have given in completing this study. Without them, I could not have completed this study on time. Lastly, to others who have been involved directly or indirectly in the production of this research, I express my thankfulness.

## ABSTRACT

This paper studies the determinants of cocoa export in Malaysia in the era of free trade. Using OLS regression method, the findings revealed that there are positive relationships between cocoa export and explanatory variables namely planted area ( $b = 0.554$ ), world price of cocoa ( $b = 5.122$ ), and competitors' export ( $b = 0.030$ ). The results show that the cocoa export is influenced significantly ( $p < 0.05$ ) by planted area and competitors' export.

In terms of elasticity test, the elasticity of planted area is  $E_P = 0.25$ , world price of cocoa is  $E_{WPC} = 0.14$  and competitors' export is  $E_{CE} = 4.54$ . Competitors' export is the most responsive as the changes in value of export by competitors by 1% will cause a great change in Malaysia's cocoa export by 4.54%.

TABLE OF CONTENT	v
LIST OF TABLE	vii
LIST OF FIGURE	viii
ABSTRACT	ix
CHAPTER ONE: INTRODUCTION	
1.1 Background of study	1
1.2 Problem Statement	6
1.3 Research Objectives	8
1.4 Scope of Study	8
1.5 Research Hypothesis	8
1.6 Definition of Term	10
1.7 Significance of Study	11
1.8 Limitation of Study	12
1.9 Theoretical Framework	13
CHAPTER TWO: LITERATURE REVIEW	
2.1 Planted area and Cocoa Export	14
2.2 World Price of Cocoa and Cocoa Export	15
2.3 Export of Cocoa by Competitors and Cocoa Export	16
CHAPTER THREE: METHODOLOGY	
3.1 Sources of Data	17
3.2 Model specification	17

3.3 Data Analysis	18
3.3.1 Statistical Package for the Social Science (SPSS)	18
3.3.2 Coefficient of Determination ( $R^2$ )	19
3.3.3 Coefficients of Variables	19
3.3.4: Hypothesis Testing	19
3.3.5 Problems with Multiple Regression Model	22
3.3.5.1 Multicollinearity	22
3.3.5.2 Autocorrelation	23
3.3.6 Concept of Elasticity	25
3.3.6.1 Elasticity Test	25
CHAPTER FOUR: FINDINGS	
4.1 OLS Regression Model	27
4.2 Problems with Multiple Regression Model	33
4.3 Elasticity Test	36
CHAPTER FIVE: CONCLUSION AND RECOMMENDATION	
5.1 Summary of Findings	38
5.2 Recommendation	39
