## **Acknowledgement**

Alhamdulillah we are able to complete our assignment about the Integrated Final Project (IFP) (BSR330) in times given. Firstly, thanks to Allah for giving us health and strength to finish this grouping coursework in order to fulfil requirement of the report for this subject.

We would like to express our deepest appreciation to all those who provided us the possibility to complete this report. A special gratitude gives to our supervisors Sr.Dr Alia Abdullah Saleh and Sr.Dr. Mohd Fadzil Mat Yassin, whose contribution in stimulating suggestions and encouragement, helped us to coordinate our project especially in writing this report.

To our family, thanks for providing everything, such as the moral the financial support as to buy the materials needed for the project and also their advice which has become one of the important keys to the success of this assignment.

In addition, thanks to our group members, for giving each other a lot of support and teamwork to had done this assignment. By this teamwork we can finish this report within the limited time. A special thanks goes to our friends who help us to assemble the parts and gave suggestion about the task given.

Last but not least, these project helps us to know so many things especially about the building management. We also gain new knowledge and facts about the project.

## **ABSTRACT**

This report is about Menara Tabung Haji Platinum building which located at the Platinum Park, KLCC. This report is about the building and the maintenance system that was used in the building. In this report, all the information that has been collated during site visit at the Menara Tabung Haji Platinum and interviewing some person in charge for our final project. Mostly, the services used in Menara Tabung Haji is similar to other normal office building. But the special things about Menara Tabung Haji Platinum is this building got the certified as green building. This building was using their own maintenance management which is TH Universal Builders. They were function to run the maintenance inside the building plus with outsource maintenance. Overall, the maintenance work in Menara Tabung Haji Platinum still in good maintenance as it is a new building. But their still need to improve in their planning for maintenance.
