## ACKNOWLEDGEMENT

This project could not have been completed without the help of some important and special people. We would like to acknowledge our helpful Research Supervisor, Madam Irini binti Haji Ibrahim. The supervision and guidance that she gave truly helps the progression and smoothness of our research paper. Her co-operation is indeed appreciated.

This research project has been carried out by joining effort of our team comprising of Hatin Nabihah binti Mohamad Zamri, Akmar Naqhi binti Jasmi, Martina binti Mohd Idris and Nur Dura Munirah binti Zulkifli.

Our special thank goes to the interviewees and the expertise for giving us sufficient informations, in particular to Respondent 1 (*Deputy Director Pest & Disease from Malaysia Agricultural Research & Development Institute (MARDI)*), Respondent 2 (*Chief Assistant Director of Pesticide Poison Control Division (Department of Agriculture) from Ministry of Agriculture & Agro-Based Industry Malaysia*), Respondent 3 and 4 (*Paddy farmers in Kedah*), and Respondent 5 (*Assistant Manager of Agricultural Chemicals (M) Sdn Bhd*).

A great deal of contribution and cooperation during the interview session is much appreciated.

Finally, and most importantly, we would like to thank our parents. Their support, endless encouragement, quiet patience and unwavering love were undeniably helping us to be more determined in doing our research. Without their encouragements, we would not have finished this research paper.

## **ABSTRACT**

The study is carried out to review the legal enforcement in the usage authorisation of pesticides in agricultural industries in Malaysia. The research will be based on qualitative type of research by focusing on data gathered from various written sources as well as interviews conducted with legal experts. It will focus on the legal enforcement regarding the unauthorised usage of pesticides in the agricultural industries especially in the paddy industries in Malaysia which are ineffective and inadequate.

The provision governing the pesticides law in Malaysia is found lacking and incomprehensive. The current law does not adequately act as a guideline to authorise the usage of pesticides in the agriculture industry in Malaysia. Thus, the research done has some recommendation proposed at the end of this research in view of improving the Act and thereby provides a more comprehensive guideline. Later it will instil awareness towards the user of the pesticides in the paddy industry in regards of safe use of pesticides.

## **TABLE OF CONTENTS**

Acknowledgement	ii
Abstract	iii
Contents	iv
List of Statutes	viii

### **CHAPTER 1 : INTRODUCTION**

1.0	Introduction	1
1.1	Research Background	1
1.2	Research Questions	2
1.3	Research Objectives	2
1.4	Significance of Research	3
1.5	Scope of Research	4
1.6	Research Methodology	5
1.7	Limitation of Research	6
1.8	Conclusion	7

### **CHAPTER 2 : LITERATURE REVIEW**
