Thank God, five of us have done our Business Planning for this course (ETR 300).

First of all, we would like to thank our ETR 300 lecturer, Encik Amran bin Awang because of his cooperation and without his help and patient we will never completed our business plan. He was an open-minded person and understanding and all the criteria help us to complete this business plan in an exuberant condition. We can't reply his good deeds and we will always remember it.

This business plan also helps us to have information about entrepreneurship. We also hopes that this business plan can show us to a bright future and can give many advantages to us.
