ACKNOWLEDGEMENTS

Alhamdulillah. Full of thank we praised to God the Most Merciful and Most Forgiveness as we finally were able to finish our project paper on **“Regulating Recycling in Malaysia”**.

In completing this project paper, we have been through a lot of thing and so much effort has been put by us. Nonetheless, this would not be completed with successful without the supervision and guidance from our fantastic supervisor. We would like to acknowledge her, DR. SIVABARATHI A/P MARIMUTHU (SHARLENE) for her vast experience in guiding us while completing this project paper and had given us so much advice before this project paper can come into reality. From one chapter, she has helped us until the produce of this project paper.

Special gratitude also we bid to Dr Sheela Jayabalan for her first step in teaching us in legal research methodology. Without her assistance and guidance, we might not be able to come out with an idea to do a project paper on this important area of law.

Not to forget, thank you to our beloved friends that have been going through everything together while completing this project paper. The effort and teamwork that has been showed has making this project paper come into existence. We hope that this project paper would not only be benefited to us, but also for our group project. Warmest thank you we bid to our classmate that has help us in giving ideas for the betterment of this project paper.

Last but not least, to our family members, special thanks we wish to them for their continuance support and encouraging advice during the completion of this project paper. They had all made us strong to come out with this project paper.

Lastly, we hope that this project paper would give an ideas and guidelines for Malaysia to have our own specific law mandating recycling law to all Malaysian.
