EXECUTIVE SUMMARY

NR Tech is a manufacturing company that intends to be based in Taiping, Perak and established for the purpose of provides customers with full satisfaction. We also intend to produce a variety of technology-based products for the convenience of future customers.

Our vision is to be the leading manufacturing company in furniture market as well as the whole of the United States will be achieved as we have put together the best strategies to ensure that these goals and missions are achieved.

To this end, we have employed the best professionals who have the necessary vast experience needed to run and grow the business. We intend to ensure that our professionals become the best in the field by constantly offering training them to upgrade their skills.

Also, we know how important incentives are in motivating an employee, and as such we have welfare packages in place to ensure that our employees get the best that they should. Asides welfare, we have an effective structure in place to ensure that promotion is given to deserving employees as at when due.

We know how important it is to acquire the best machineries and equipment that will ensure production gives us optimal performance. Our maintenance team will be on hand to constantly give our machines a thorough check every now and then and ensure that major breakdowns are prevented from occurring.

Retaining our customers is a very strong suit for us and so we have strategies in place to ensure that our customers remain happy with our products and services. This can be achieved if we employ the best customer service executives who are adept at handling orders, promptly attending to complaints and inquiries. We also intend to provide listening ear to our clients for feedbacks that will help make the company progress.

Our responsibility as a company means that at all times we must demonstrate our corporate culture and ensure that our foundation remains solid by remaining proactive and modifying weak strategies to make them stronger.
