Programme Coordinator : _____ Dr. Norainah Abdul Rahman

ABSTRACT

The study is being conducted about the suitable activities for recreational facilities at Pantai Teluk Kemang, Port Dickson in Negeri Sembilan.. The reason is to enhance and improve the study area become more functional with sufficient recreational facilities and recreation activities as a recreation park. This field of research are focuses on recreation activities and recreational facilities. The objective of the study are to identify the existing recreational facilities at Pantai Teluk Kemang, to determine the recreational facilities at Pantai Teluk Kemang and to propose the suitable beach facilities for attraction at Pantai Teluk Kemang. Therefore, this research uses data collection methods such as observation and questionnaire that can obtain more accurate data for the analysis of the study. Thus, the findings for this research is the recreational facilities provided at the study are inadequate and not in well maintained. Through the questionnaire method, mostly people that have visited the study are not satisfied with the facilities

ACKNOWLEDGEMENT

Alhamdulillah, praise and thank to Allah because of His Almighty and His utmost blessings, With the help and permission of ALLAH, a lot of efforts and self-confidence in doing this research, I was granted the opportunity to accomplish this final year project.

Firstly, I would like to express my gratitude to my supervisor Associate Prof. TPr. Dr. Halmi Zainol for the advices, guidance, help and valuable suggestion throughout the completion of this project. I would also like to express my gratitude to my beloved family and friends for their prayers and supports toward me for completing this project.

Lastly, to UiTM, and those who directly or indirectly contributed in this research that I have not mentioned. Thank you for being supportive, may Allah bless all of you always.
