ABSTRACT

Melody is network fluctuation of sound that can rang, sang and played. Picth which related between one same other can make a melody or song. Fluency mastery melody by pupil in teaching and learning during very important recorder game because it would objective show effectiveness education. This study is taken among pupil of year four in a district School at Segamat, Johore. This study use qualitative study design, of which as many as five people pupil as respondent. Problem identified was fluency and respondent weakness read nicely score when play song melody in class instruction. These study findings, referring to study findings before and after operate against respondent. Result effectiveness research showed that learning through software help *Sibelius* as intermediate media material in drill technique by using system number, it succeed and can help and positive effect on respondent mastered skills play recorder in class or busk in school.

ACKNOWLEDGEMENT

In the name of Allah, most gracious, most merciful. All praise belongs to Allah SWT for giving researcher guidance as well as the opportunity to complete this study. Also not forgotten to all lecturers of Universiti Teknologi Mara who were involved in the Program Pensiswazahan Guru (PPG) because had share the ideas and suggestions to me to complete this case study.

A very special thank you is also extended especially for my Mr. Mohamad Din Bin Abdullah, the Headmaster f Sk Pekan Air Panas tha support and encourage me to complete this study. Also to my colleagues Mr. Ali Bin Hadoon and Mr. Hanafiah Bin Elias, who always spent the time to help me in providing relevant information regarding this study.

Last but not least I would like to thank my friends in Music PPG course as they always give opinion and providing ideas also suggestions to me to complete this study. Appreciation is also extended to all who involved either directly or indirectly until I have achieved completely this study smoothly and perfectly.

DECLARATION

I declare that the work in this thesis was carried out in accordance with regulations of University Teknologi MARA. It is original and is the result of my work, unless otherwise indicated or acknowledged as referenced work. The thesis has not been submitted to any academic institution or non-academic institution for any degree or qualification.

In the event that my thesis is found to violate the conditions mentioned above, I voluntarily waive the right of conferment of my degree and agree to be subjected to the disciplinary rules and regulations of University Teknologi MARA.

Disclaimer

The student is fully responsible for the language and presentation of the final report
