## INTRODUCTION OF THE COMPANY

Rice King Enterprise is a fully Bumiputera Company that is trying to venture in the business of rice manufacturing that has been monopolized by other races in the country. As a developing country, Malaysia provides many facilities and opportunities especially for Bumiputera for becoming entrepreneurs. As a Malaysian citizen, who will go through the era of globalization with the stable economic, political and social condition, we should take the challenge given towards us.

Every participations from all the Malaysian in formed of energy and time will show to the world that Malaysia has proudly proved that we had been successful in the development. Due to this, we had taken some meaningful steps by making an initiative to form a company by the name of Rice King Enterprise which manufacturing and supply rice to all consumers in Malaysia.

We choose this business because we knew that it has a bright futures and high potential to make profit and will expend successfully with the future demands of Malaysian citizen. As we can see, nowadays increase in population and due to this population, the demand or needed for rice may increase.

According to the plan, Rice King will start it operation on the 1<sup>st</sup> January 2007 and four shareholders that provide all the capital needed for the business form this company. This is because the process of contributed the company will involve a lot of time. For example we need a lot of time to apply a loan from the bank for using as the beginning capital. Then we should apply for the factory license and machinery that also will involve a lot of time.

To ensure our business runs smoothly we will ensure that we will always helping each other and carry all the responsibility that are put on our shoulder by always referring to each other. If any of our departments is having any difficulties all of us will try to our best to find the solution.

Hopefully in the future the Rice King enterprise will expand manage to maintain its growth and would be able to open other branches in all the potential places that can bring great opportunities and profits. With the blessing from Allah S.W.T we hoped that we would able to reach our goals in the next future.
