## ACKNOWLEDGEMENT

Assalamualaikum W.B.T. Alhamdulillah, all praises and thank to His Almighty and His Utmost blessings, for giving me strength and chance to successfully accomplish to complete my final project report within the time duration given. I , hereby, give all of my gratitude for all the inspiration and guidance provided by UiTM staffs, and fellow members.

I take this opportunity to express our profound gratitude and deep regards to my first advisor Sir Ahmad Faiz Bin Abdul Halim and my second examiner Miss W Asma' Hanim Bin W Mustafa for their exemplary guidance, monitoring and constant encouragement throughout the course of this thesis. The blessing, help and guidance given by them time to time shall carry me a long way in the journey of life on which I are about to embark.

Also for my beloved family, great thanks for their unconditional support in term of moral, financial and always pray for my success. I also want to thanks my friends for giving me advices and support. Last but not least, thanks again to all the people who help me directly and indirectly throughout this whole period in order to finish this research for attention to detail and genuine suggestions. I pray that God will bless you all for your absolute kindness and support. Thank you.

## ABSTRACT

This study is carried out to investigate the determinants of the factors that influences to the consumer credit. This study is to identify and analysis what the factor that influences to the consumer credit to the people or consumer that apply for the consumer credit in their life. This matter is important for the people that have consumer credit especially in their future. It also will give information the relationship consumer credit with personal finance, social lifestyle and the individual lifestyle.

General objective of the study is to investigate the factor that influence to the consumer credit. While the specific objectives of the study are as below:

- i. To determine the personal finance that give influence to the consumer credit.
- ii. To examine the personal lifestyle factors that influence to the consumer credit.
- iii. To identify the individual attitude factor that influence to the consumer credit.

On this research, the random person has been chosen as the sample of this research in order to analyze the topics. At the end, the results show that the most factors that influences to the consumer credit is personal finance factor. While the social lifestyle and the individual attitude factors not give influence to the consumer credit.
