**The Lack of Public Facilities such as Mosque, Public Hall and School at Bandar  
Damansara, Kuantan, Pahang**

Accepted in partial fulfillment of the requirements for a  
Diploma in Town and Regional Planning

Supervisor : \_\_\_\_\_ Encik Izzamir Ismail

TPS 352 Coordinator : \_\_\_\_\_ Dr. Nor Eeda Hj. Ali

Programme Coordinator : \_\_\_\_\_ Dr. Norainah Abdul Rahman

## **ACKNOWLEDGEMENT**

Firstly, I am grateful to the God for giving me the opportunity to complete the report for my final year project. First of all, a million thanks to my supervisor, Mr. Izzamir Ismail for giving me a lot of guidance and infinite cooperation from the start of making proposals at the end of the semester 4 until the end of this report where at the end of the final semester. He has also given numerous guidance throughout the course of preparing this report.

In this opportunity, I also would like to thanks to the TPS352 Programme Coordinators, which are Dr. Nor Eeda Haji Ali and Cik Ana Kashfi Muhamad as well as a group of lecturers who are involved in giving brief on every chapter as they have been able to provide guidance and to have given me the opportunity as well as to all students of semester 6, March 2020 to apply for all the knowledge given by them to prepare this final year's project.

I would like to thank Majlis Perbandaran Kuantan (MPK) for sharing the information regarding the provision of public facilities at Bandar Damansara, Kuantan, Pahang. Besides that, not to forget the residents of Bandar Damansara that willingness in answering the online questionnaires survey. Not forgetting the same-struggle friends who strive to complete their respective reports and spend some time helping me to complete this report.

Lastly, thanks also to the parties who have helped them directly or indirectly. Without support and guidance from all of them I might not be able to complete this report successfully. Their discretion and service from them will not be forgotten.

## **ABSTRACT**

The provision of public facilities in a neighborhood is one of the important factors in producing a quality neighborhood. At the same time, it also produces a great and big impact to ensure that residents can do their daily life activities peacefully and also can do social activities among the community without any problems. In ensuring the provision of adequate public facilities, the study is made for neighborhood area with regard that lack of public facilities. The neighborhood is Bandar Damansara which is located in Kuantan, Pahang. The main purpose of this study is to provide public facilities that are suitable and adequate, such as mosque, public hall and also daily primary and secondary school to facilitate the social and economic matters for the residents. The actual demand and satisfaction level were reviewed to the residents of the neighborhood and showed a significant shortage of public facilities such as mosques, public halls as well as daily schools. This study understands the complexity of the residents of the neighborhood in the provision of public facilities as the neighborhood developer does not carry out their responsibilities to provide adequate public facilities according to the guidelines provided. In order to propose the provision of adequate public facilities, the satisfaction and opinion from the residents about the neighborhood are also included in the provision of public facilities that are expected to help the residents do business in their daily lives.
