## **ABSTRACT**

My name is Muhammad Azrul bin Mohd Hosaini. I am student from UiTM Pasir Gudang semester 4. I am from Faculty of Civil Engineering. Industrial training is important to all student because it will expose us to the world of engineering. We also will learn how to adapt in environment at site construction. So that, we will be ready to enter the engineering world when we graduate from university. It is a chance for us to implement what we have learned in university and knowledge that we gained during industrial training when we start our engineering career.

Firstly, this report is about my industrial training that I had undergo for 2 month, which is 8 week in total. I was given a chance to undergo industrial training at JohorLand Berhad Bandar Tiram Division. I choose to apply for industrial training here is because I have made some research for developer company and I found out that JohorLand Berhad is one of the top company developer in Johor. So, I made my decision to apply for industrial training here because I believe that I will gain more knowledge and experience which is related to my course.

This report consist of 4 chapter. Chapter 1 is introduction to company. In this chapter, I will explain the background of the company, vision, mission and objective of the company. This chapter also include the organization chart of the company. Chapter one Can be conclude as the chapter for introduction to company. For chapter two, I explained about my weekly activities that I wrote at y daily industrial training logbook. For chapter three, it is about technical report. In this chapter, I explained about what I learned during my industrial training at Johor Land Berhad. Everything that I learned at the site construction, test and at office such as contract document and drawing plan have been write in this chapter. Last but not least is chapter four which us conclusion of the report. This chapter is about what I get from this industrial training during 8 week period. This is all about my report that I can share. I hope this will help you when you are working with developer company.

## **ACKNOWLEDGEMENT**

Praise to Allah for this 2 months I undergo my industrial training that begins at 18 April 2017 till 11 Jun 2017, I finally successfully completed my industrial training report. I would like to extend my thankfulness to the most precious person in my life, my father and mother for all their moral support, financial support and also to my friends for never ending reminding me to always be trustworthy during my training here. As for my faculty supervisor, Miss Adrina bt Abu Talip, I thank you for all reprimand and guidance as it is very helpful for me in completing my report. Last but not least, I would like to extend my appreciation to my industrial supervisor, Encik Mohd Faizal b Mohd Fauzi for their advice and patiently guiding me through while I working here as a trainee. Not forgotten for all the staff at Johorland Bandar Tiram division, I very much appreciate for their entire kindness helping and teaching me when I'm learning there. I am very lucky to have such a helpful staff and I never felt left out in any situation.

I am entrust to undergo my industrial training at Johorland Berhad for 8 weeks before I can complete my subject course in order to graduate. I have completed 8 weeks the period that required for my training. During these 2 months training here, I am exposed to many new things which are very valuable for me to learn and carry out with devotion when I face the real world of working in the future. The motive of this action is to expose students and let them experience the environment of the real world of working before graduating. It is also to prepare students to face real challenge and learn how to find the solution when problem encounter besides completing the course.

Finally, I appreciate all support from everyone that had contribute in one way or other towards the success of this industrial training.
