AKNOWLEDGEMENT

Firstly, I am grateful to the Allah SWT for HIS blessing and guidance towards completing my assignment. Next, I had to take the help and guideline of some respected persons, who deserve my greatest gratitude in completing my assignments which gives me much pleasure. Hence, I would like to express our sincere gratitude towards my ENT600 (Technology Entrepreneur) lecturer Madam Tengku Sharifeleani Ratul Maknu binti Tengku Sulaiman in UiTM Seremban for giving me a continuous guidance, ideas, suggestions, inputs, constructive comments and encouragement as well for assignment throughout the project. Once again, a thank you also to her who introduced me to the Technology Entrepreneur and whose passion for teaching and give me the knowledge about writing the report.

Besides that, I also thanked the UiTM Seremban since giving me the opportunity to complete my assignment in a conducive place. Many people, especially my classmates since they have made valuable comment suggestions, ideas, opinions and experiences on this assignment which give me an inspiration to improve my assignment. Apart from that, I would like to express my gratitude to my family who tried to give support for me either by supporting the financial for use to pay all the cost required or giving us a lot of encouragement to complete this assignment. Credits is also given to or respective partners who were committed and supported from the ground work till completion of the study. I would also like to expand my deepest gratitude to all those who have directly and indirectly guided me in writing this assignment. I would also like to expand my deepest gratitude to all those who have directly and indirectly guided me in writing this assignment.

Throughout this project, I have gained a lot of experience in finding out more about the subject matter and entrepreneurship concepts as well as financial and business project. I perceive as this opportunity as a big milestone in my studies development. I will strive to use gained skills and knowledge in the best possible way, and I will continue to work on my improvement, in order to attain desired studies objectives.

1.0 EXECUTIVE SUMMARY

This section is divided into five sections which are brief description of the business and product concepts, the target market and projections, the competitive advantages, the profitability and the management team.

1.1 BRIEF DESCRIPTION OF THE BUSINESS AND PRODUCT CONCEPTS

Nowadays, industry manufacturing looking more interested in shoes product where people would like to have their own shoes. Today, many types of shoes are produce in variety looks, styles, colours and the benefits itself. Each of the people has their own dreams shoes styles that they interested of.

Nice company is a company that is formed under partnership and targeted to be one of the top company in Malaysia by providing the shoes product which is Nice Self-Safety Alarm Shoes to the customers. The product is the combination of shoes and the technology of self-safety alarm shoes which it is invented to make people feel secured when they use this invention. This invention is small and compact in size and can be installed in footwear. This compact design makes it very convenient to use, since most people wear footwear all the time for in such activities as going to work, school, exercise or when they perform sports.

The objective for the production of this product was to create new product that combine the existing product with new technologies. This product can help customers feel safe when they are somewhere out of their house by using self-safety alarm shoes as well as increase the safety and security of the user by using technology.

The design and features of this product are significantly custom made so that this product can fully perform according this project intention to accomplish it objectives. The unique features of this product is the technology is being implant in the shoes which shoes product with technology had not been invented yet.

This product has its own benefits because it can reduce many problems especially people who have security and safety problems. This is also suitable to be wear in many places and it is referring a technology which gives this product more beneficial.

Nice company confident that their company are being marketed to attract the public and thus provide a double benefit to the company because there is always something for everyone needed.
