ACKNOWLEDGEMENTS

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

"In The name of Allah, The Most Gracious, The Most Merciful"

We intended to express our greatest thankfulness to the Almighty Allah for allowing us to accomplish our final year project. We would like to spell out our million appreciations to our supervisor, Dr Wan Fairos binti Wan Yaacob and co-supervisor, Prof. Madya Dr Sarimah binti Abdullah for their inestimable time that they have spent on reviewing our report and priceless supervision. We would like to thank both of them for the ceaseless serenity and diligence in answering our questions and sharing knowledge about our study. We are enormously indebted for their effort in helping us to augment our knowledge.

A greatest gratitude to Universiti Sains Malaysia Human Research Ethical Committee and Director of Hospital Universiti Sains Malaysia (HUSM) for the approval and permission of reviewing medical records of hospitalized patients with Systemic Lupus Erythematosus. Not to forget, kudos to the staffs in Medical Record Office Hospital USM for their helps in getting the folders of data of SLE cases.

Furthermore, we also would like to express our gratefulness to our friends who have been helping us a lot in giving opinion, sharing ideas and their knowledge in order for us to complete our study. We also would like to thank people who directly or indirectly involved in our study because without them it is mostly impossible to accomplish our final project. Last but not least, we would like to dedicate a very special thanks to our families especially our beloved parents for their continued encouragements and supports. Without them, none of this would ever happen. May all that we have done will be blessed by Allah S.W.T.
