ABSTRACT

Tajweed in the holy Al-Quran is the foundation of the entire Al-Quran learning. All muslims should be able to read and recite the verses in the Al-Quran and able to pronounce correctly especially during the solah routine. Conventionally, using book or traditional method is less effective compared to e-learning process because people nowadays are more interested in using the multimedia approach. Hence, the main purpose of developing the jomQuran courseware is to focus on the correct pronunciation for the letters of hijaiyah and able to differentiate the behaviour of the letters. This courseware focusses on the beginner users who want to improve their recitation when reciting the Al-Quran. The jomQuran courseware was derived from the development process conducted by ADDIE model which involves five phases such as analysis, design, development, implementation and evaluation. The project is tested and evaluated in terms of contents, multimedia elements, ease of use, usability, activities and satisfaction of the courseware by experts and users. Based on the evaluation result, the highest mean of the constructs is ease of use, (mean = 4.53, SD = 0.571). It is a hope that the jomQuran courseware will be able to enhance the learning experience for people pronouncing the letters of hijaiyah correctly so that they can recite the Al-Quran smoothly.

TABLE OF CONTENTS

CONTENT	PAGE
SUPERVISOR APPROVAL	ii
STUDENT DECLARATION	iii
ACKNOWLEDGEMENT	iv
ABSTRACT	v
TABLE OF CONTENTS	vi
LIST OF FIGURES	ix
LIST OF TABLES	x

CHAPTER ONE: INTRODUCTION

1.1	Background of Study	1
1.2	Problem Statement	2
1.3	Project Objectives	3
1.4	Project Scope	3
1.5	Project Significance	4
1.6	Project Gantt Chart	5
1.7	Project Framework	5
1.8	Expected Outcome	6
1.9	Conclusion	7

CHAPTER TWO: LITERATURE REVIEW

2.1	Introduction	8
2.2	Tajweed Makhraj	8
2.3	Multimedia Courseware	11
2.4	Elements of Multimedia	11
	2.4.1 Text	12
	2.4.2 Animation	13
	2.4.3 Video	13
	2.4.4 Image	14
	2.4.5 Audio	15
2.5	Development of Multimedia Courseware	16
	2.5.1 ADDIE Model	16
	2.5.2 ASSURE Model	19
	2.5.3 ARCS Model	20

	2.5.4 Dick and Carey Model	20
	2.5.5 Gerlach and Ely Model	21
	2.5.6 Reason for Choosing ADDIE Model	22
2.6	Implications of Literature Review	23
	2.6.1 Al-Furqan Courseware	23
	2.6.2 M-Tajweed: A Mobile Courseware	23
	2.6.3 Mandarin Courseware	24
	2.6.4 'Komputer Saya' Courseware	25
	2.6.5 STAr: Story Telling for Arabic Language	26
2.7	Implication of Literature Review to Project Development	26
2.8	Conclusion	27

CHAPTER THREE: METHODOLOGY

3.1	Introduction	28
3.2	Analysis	28
3.3	Design	32
3.4	Development	37
3.5	Implementation	38
3.6	Evaluation	39
3.7	Conclusion	41

CHAPTER FOUR: ANALYSIS AND DISCUSSION

4.1	Introduction	43
4.2	Business Process Improvement	43
4.3	jomQuran Courseware Interface	44
4.4	Courseware Testing	48
4.5	Expert Evaluation	51
4.6	User Evaluation	54
	4.6.1 Demographic Information	55
	4.6.2 Result of Survey	56
4.7	Discussion	63
4.8	Project Summary	64
4.9	Conclusion	66

CHAPTER FIVE: CONCLUSION AND RECOMMENDATION

5.1	Introduction	67
5.2	Summary of Project	67
5.3	Contribution of the Project	69
5.4	Limitations of project	70
5.5	Recommendation for future enhancement	70
5.6	Conclusion	71
