ACKNOWLEDGEMENT

“IN THE NAME OF ALLAH, MOST GRACIOUS, MOST MERCIFUL”

First of all, I would like to say Syukur Alhamdulillah at last; I can complete my final research successfully. It took me about 4 and half months to complete the thesis. Lots of bittersweet sour memories happened to me in between the time. In order to complete this thesis, I had survived a lot to find the best result of my research. I want to give the *crème de la crème* result for my final findings.

Here, I would like to thank to my great advisor, Madam Nurazleena bt Ismail for giving me the best advice and guidance in order to help me completed this research. The valuable information and ideas given by her are very useful for me. Besides that, she also had instructed me in a very inspiring way with full of motivating thought.

Similarly, I also would like to express my appreciation to my second advisor, En. Ahmad Faiz bin Abdul Halim for giving me the great ideas and opinion. Without your effort to guide me, I might not be able to complete my research in a right way. Plus, I would like to thank to all my colleagues for helping me a lot in finding the data.

Last but not least, I would like to give appreciation to both of my parents for supporting me and give me moral and motivating support.

THANKYOU VERY MUCH TO ALL
